Art house cinema is dying. Many Independent theatres sit vacant as would-be patrons amble past extinguished marquees. At night, they come to life — the lights, the popcorn, the magic of the cinema. But in the age of "home streaming," is this experience enough? Only you, the viewer, can decide.

Directed by: Ron Chapman

This documentary transports viewers back to Toronto's Varsity Stadium in 1969, when a gutsy and visionary pair of concert promoters barely out of their teens, tries to create a music festival featuring the original rock and roll bands from the 1950s. The concert was almost cancelled, until a last minute request to John Lennon and Yoko Ono saved the festival, turning it into "the second most important event in rock & roll history." The film features appearances by John Lennon, Eric Clapton, Chuck Berry, Little Richard, Jerry Lee Lewis, Bo Diddley, Gene Vincent, The Doors and Alice Cooper.

Following the screening, we will have a Q&A with industry insiders, the awards ceremony, drinks and nibbles.

Workshop: Post-Production Artwork Documentation

Date and Time: Wednesday, October 5 5:00 pm - 6:30 pm

Address: Virtual

With Laura Findlay

Hosted on Zoom

Register: https://us02web.zoom.us/webinar/register/WN_ktNs4Tm_RceDkt3BG3-kTA

This event is free and open to everyone.

Learn how to put your best foot forward with images! In this workshop, we'll look at editing tools and processes that are relevant to the post-production side of artwork documentation. Whether you're uploading examples of your work to a grant application, a call for submissions, or your online portfolio, this workshop will help you share accurate and polished images of your work with funders, curators, and others who rely on photo documentation to make important decisions about you and your work.

Topics include:

- A review of digital files – what you need to know about resolution and file size
- An overview of fundamental photo-editing techniques
- An introduction to preparing image files for applications with a discussion about why good quality images matter and how to meet expectations

Please note: This workshop does not cover how to take good pictures, so it won't cover camera types or settings, accessories, or techniques for capturing accurate colour or lighting. This workshop also isn't about preparing digital files for print. The goal of this workshop is to provide an overview of post-production tactics for creating high quality digital images that can be used in grant or exhibition applications, or like settings.

This workshop will be hosted as a 70-minute Zoom webinar with an opportunity to ask questions at the end.

Drop off items for reuse, recycling and safe disposal during Durham's Environment Days

Date and Time: Saturday, October 29 8:00 am - 12:00 pm

Address: Lakeview Park, Kluane Avenue, Oshawa/Municipal Boat Launch, 2 Old Rail Lane, Port Perry

The Regional Municipality of Durham, in partnership with the area municipalities, is inviting residents to attend one of the upcoming Environment Days to donate items for reuse, recycling and safe disposal.

The two events run from 8 a.m. until noon (rain or shine):

Saturday, October 29

Lakeview Park (parking lot)

Kluane Avenue, Oshawa

Saturday, October 29

Municipal Boat Launch (parking lot)

2 Old Rail Lane, Port Perry

Residents can donate items in good condition for reuse, including clothing and textiles, shoes, bedding, small household items and sporting goods. Only items deemed to be suitable for reuse by local charities will be accepted. Materials refused by charities must be removed by residents and may be disposed of at one of the Region's waste management facilities, and fees may apply.

Residents can also safely recycle their end-of-life electronic waste at Environment Days, which helps to recover and recycle valuable resource

s while keeping toxic materials out of the waste stream. Examples of electronic waste include cell phones, audio and video players, VCRs, DVD and Blu-Ray players, stereos, computers, televisions, cameras, radios and more. Residents should erase personal information from hard drives and SIM cards before bringing their obsolete, broken and end-of-life electronics for safe and secure recycling.

To help ensure household hazardous waste (HHW) items are safely disposed of, and to prevent toxic materials from entering local ecosystems and water sources, residents can also bring HHW items to the Environment Days event. Examples of HHW include antifreeze, batteries, brake fluid, motor oil and filters, fluorescent light bulbs and tubes, cooking oil, medication, mercury thermostats and more. Commercial, institutional, agricultural, or industrial waste is not permitted.

Residents are encouraged to bring a non-perishable food item to be donated to a local food bank (please check that boxes and cans aren't damaged, opened or expired). To learn more about waste management in Durham Region, or for more information including tips for attending a collection event, visit durham.ca/waste, email waste@durham.ca, call 1-800-667-5671 or download the **[Durham Region Waste App](#)**.
