Councillor Neal declared a conflict on this item. (Councillor Neal made a declaration of interest concerning Item CF-22-70 as it involves the spouse of his doctor and did not take part in discussion or voting on the matter.)

Moved by Councillor McConkey

That the Corporate and Finance Services Committee recommend to City Council:

Whereas the October 24, 2022 municipal election resulted in a ballot recount that raised the issue whether an update or amendment to the City's Municipal Election Recount Policy should be considered for enhanced fairness and confidence amongst candidates, electors and administrators to ensure that Oshawa municipal election results accurately reflect the votes cast;

Now therefore staff be directed to review and report back to the Corporate and Finance Services Committee and Oshawa Council on the City of Oshawa's Municipal Election Recount policy and procedures:

- i. To ensure compliance with Provincial legislation; and,
- ii. Compare Oshawa's election recount policies and practices with those of other Ontario municipalities such as but not limited to the City of Toronto and other Durham Region municipalities; and,
- iii. To provide a breakdown of the costs of the 2022 Ward 1 City Councillor election recount; and,
- iv. To include any recommendations for potential ways in which the City of Oshawa's election and by-election process and election recount policy, practices and timeline procedures may be further improved to enhance confidence in the City of Oshawa election processes.

**CF-22-71 - Investigation of Green Bonds for the City of Oshawa's Investment Portfolio Strategy (All Wards)**

Moved by Councillor Giberson

That the Corporate and Finance Services Committee recommend to City Council:

Whereas the City of Oshawa has committed through our strategic plan, a Council declaration of climate emergency, and other initiatives to reduce our municipality's carbon footprint; and,

Whereas the City of Oshawa has an investment portfolio that continues to be grown and diversified according to a prudent investment approach and already includes many fixed-income securities issued by government and other entities with high scores with various bond-rating agencies; and,

Whereas on March 22, 2022, the federal government issued its first sale of green bonds and an issuance of \$5 billion was sold in a short period and generated over \$11 billion in offers, and the global market for green bonds are expected to surpass \$1 trillion USD in 2022, demonstrating both the significant investor confidence in this form of security as a reliable, stable investment tool and as an effective means of financing capital projects by issuers; and,

Whereas investments in green bonds provide another tool for a municipality to lower its carbon footprint and support a carbon-reduced future for all by investing reserve dollars into financial instruments that will finance diverse green projects;

Therefore be it resolved that the Corporate and Finance Services Committee recommend that:

1. Oshawa City Council direct Finance Services staff to integrate the purchase of green bonds into the overall investment portfolio strategy based on prudent investment practices, and provide an update on progress with this specific initiative in the annual investment report to Council; and,
2. That this item be referred to the 2023 update of the Financial Strategy.
