Re: **Update - Notice of Stage Two of the Integrated Major Transit Station Area Study for Central Oshawa**

On January 17, 2023, the Oshawa Accessibility Advisory Committee (“O.A.A.C.”) was provided a presentation by staff regarding the Stage One of the Integrated Major Transit Station Area Study for Central Oshawa (the “Integrated M.T.S.A. Study”). O.A.A.C. did not make a motion on the presentation.

The public consultation window for Stage Two of the Integrated M.T.S.A. Study will open on May 25, 2023 and run until July 21, 2023.

Economic and Development Services staff will present Stage Two of the Integrated M.T.S.A. Study to O.A.A.C. at their meeting on June 20, 2023. Staff anticipate reporting to the Economic and Development Services Committee on the results of the Stage Two public consultation on September 11, 2023.

Due to the timing of O.A.A.C.’s regularly scheduled meetings, in the event O.A.A.C. wished to refer commenting on the June 20th presentation to a working group to report back at a subsequent meeting, there would not be an opportunity to report back until after the staff report were finalized (i.e. on September 5, 2023).

Therefore, staff would recommend O.A.A.C. proceed one of following two (2) ways:

1. Prepare to provide comments at the June 20th meeting and not refer to a Working Group; or,
2. Refer commenting on the June 20th presentation to a Working Group, but anticipate a Special O.A.A.C. meeting being called prior to September 5, 2023 to consider the Working Group’s Report.

Economic and Development Services staff will provide members with the relevant background information for Stage Two of the Integrated M.T.S.A. Study via email as soon as it becomes available, on or before May 25, 2023.

Recommendation

That Report OAAC-23-23 be received for information.
